

This is one of the earliest preserved JBU live sets (except of the recordings with Ornette from 1974 and 1978).

It's an SBD of very good quality

This has nothing to do with the recording NO WAVE issued by Moers Music and recorded in June 1980.

This is live set from Moers Festival, 26.05.1980 and includes titles known from 3 JBU recordings: Tales of Captain Black, Are You Glad to Be in America? and overmentioned No Wave.
