

Talking Bob Dylan Blues

The Barbican Theatre

London, UK

September 26, 2005

Special from concert shown on BBC

PAL format

In response to several requests, here is a video of the audio seeded by Kottd. I took out the same two cuts he did, since they were on the BBC web site, as well as the introductory collage, which had some pre-recorded music in it. After taking out the forbidden parts, re-assembled the menu. Excellent quality.
