

Alice Cooper

Studio Demos 1970-1973

All tracks are studio outtakes/rehearsals/demos. Sound Quality: Varies - generally 5-6/10 Some of the LITD and Killer Demos have been seeded here recently and in better quality, so I marked those tracks with an asterisks, in case you want to skip those. I've hesitated on torrenting this because not only can I not give any comprehensive lineage, I also ripped them from the cd-rs that I originally got them on and then used large amounts of noise reduction because boy did they need it. Now I can't find my original discs - so here's what's left.

Alice Cooper Studio Demos 1970-73
